Contributors for large corporate clients will be fielding teams with drafted NHL alumni participating.

This tournament attracts numerous contact opportunities for therapists among NHL alumnus & corporate clients. It's a networking opportunity second to none, while raising money for Alzheimer research.

Having volunteered for various projects with this organization, I can absolutely state that they appreciate and look after volunteers.

It would be great if we could be well represented and our skills showcased among a very high profile clientele.

Members who are interested in this one of a kind opportunity to please contact **Jonathan Maister** with a time commitment at (905) 447-8900 or by E-mail at mrj.tor.can@sympatico.ca
